Get Back in (Singing) Shape: A Post-Pandemic Workshop for Choral Singers with Bonnie Pomfret, soprano and master teacher

Even if your choir had virtual rehearsals, sitting in front of a screen and singing to it are nothing like singing in an acoustical space with other singers! As we begin at last to make music together, it's time to get our voices back in shape with a technical tune up. In this interactive workshop, Bonnie will help your choral singers:

- reconnect to their breathing
- enhance their resonance
- reclaim their support
- energize their singing

Your singers will feel (and you will hear) the difference!
One-hour workshop by appointment: \$200 in-person or virtual.

Bonnie Pomfret, soprano, has sung around the U.S. and internationally; her solo CD of songs by American women was received to critical acclaim. She holds the DM in Voice from Indiana University and the MM in Voice from Boston Conservatory. Bonnie is a Certified McClosky Vocal Technician and Master Teacher and served as a Singing Voice Specialist at Peoria ENT Group and Emory Voice Center (Atlanta). Bonnie has served on the voice faculties of Boston University, Emory University, and Illinois State University, and has presented at the international Congress of Voice Teachers, the Korean Association of Voice Professionals in the Arts, the Voice Foundation, the American Speech and Hearing Association, and at numerous regional conferences.

Dean's Message

Greetings!

I was probably eight years old when my parents first took me to a Six Flags amusement park in my native Texas. My mother loved roller coasters, and managed to convince me to ride the Runaway Mine Train with her—hardly a roller coaster by modern standards, but scary to a youngster nonetheless. Though only a bit over 3 minutes, the ride felt endless! The initial slow tug up what seemed to be an

enormous climb produced much anxiety, and then the ride 'proper' began. Many screams and heart palpitations later, we were finally thrust up to what I thought was the loading/unloading building; I had survived. Another slow tug up to the building ensued, as I pronounced how glad I was that the ride was finally over. Just as I started to breathe normally again, I realized the building we were pulling into wasn't the loading/unloading building, but rather a pretend Saloon with plastic people and decorations. Suddenly, there was no floor in front of us, and our train was heading straight down toward a lake! We went through an underwater tunnel at what seemed like lightning speed, and then did indeed reach the final destination.

"I expected the worst, and it was worse than I expected." ~ attributed to Henry Adams

Eleven months ago, I wrote to you in what turned out to be the still-early stages of the Covid-19 pandemic. I spoke about the train we were riding on together, in the back car, unable to see forward. It seems that at some point during the past eleven months, we made our way to the front of the train, and 'thought' that we could at last see where we were headed. However, as we approached what seemed to be a stopping point, we instead found ourselves in the make-believe Saloon. The ride continues, and it feels as if the floor has dropped beneath us yet again, as we plunge into a dark tunnel. Where will we be when we emerge this time?

"Courage is not the absence of fear; it is a commitment to something greater than fear." ~ Robert Holden

I didn't take part in any more rides that day at Six Flags. However, the adventure did obviously plant a few seeds, as I later became an avid coaster fan. Though I haven't been to an amusement park in over 20 years, I can still recall the exhilarating dopamine rush the rides produced. How easy it would be at this juncture to just throw in the towel, overcome with frustration and uncertainty. I hope, however, that we will continue to persevere through this evolving challenge, and that we will continue to do so together. Even in these troubling times, we do indeed have much to be excited about. For starters, our national organization has named this the Year of the Young Organist (July 1, 2021 - June 30, 2022). Though 'young' is a relative term, in this case it refers to those under the age of 30! It might seem difficult to encourage anyone, young or old, to go into this line of study and work right now; but, just think about 'why' you yourself chose this path in the first instance (or perhaps, like me, the path chose you). Can you still imagine that exhilarating dopamine rush of performing or teaching, even if unable to do it properly right now? Or, as you've adapted to new and more 'virtual' methods, have you discovered new sources of excitement and inspiration? If you have stories to share, or advice to offer, please write to me and fill me in! It might be that we ask you for permission to share your musings with the BAGO community in a future edition of Pipings.

Cory Muscara, former monk and author of *Stop Missing Your Life*, says this: "The most difficult moments of life can bring the greatest growth, perspective, and insight. They can also drop us into vulnerability, making us more receptive to things like love, connection, honesty, and authenticity. We're more likely to connect to the people we care about and reprioritize what is most important in life." Colleagues, I hope that you're holding on to what you find most important, and that you will stay in touch and connected during the upcoming "2nd Season" of Covid-tide. Whatever the path forward turns out to be, and however long this journey takes, I am glad to be in good company for all of the challenges and thrills along the way.

Jonathan Wessler joins Executive Committee

Jonathan Wessler, Kantor at First Lutheran Church of Boston, has been appointed to serve on the Chapter Executive Committee. He will also serve the Chapter as Advertising Manager for our newsletter "Pipings".

Jonathan Wessler has served since 2016 as the Kantor at First Lutheran Church of Boston, where he oversees a thriving music program specializing in the finest liturgical music of the Lutheran tradition. Under his direction, the FLC choir and orchestra present music of Bach, Praetorius, Schütz, Handl, Hassler, Senfl, and others, as well as liturgical chant as retained in the Lutheran missals. He is honored to play the church's fine Baroque pipe organ, built in 2000 by Richards, Fowkes & Co. Known as "Boston's Bach Organ," it renders the music of Bach and his contemporaries with the utmost authority. Wessler also serves as the artistic director of the annual Boston Bach Birthday, which draws hundreds in celebration of Bach's contributions to sacred music.

Wessler received the Doctor of Musical Arts degree in organ performance from the Eastman School of Music, studying with William Porter. His primary research interest was in early Lutheran liturgy, and his doctoral essay concerned the reception of Martin Luther's Latin and German settings of the Mass by the second generation of Lutherans, as evidenced in Johann Spangenberg's *Cantiones ecclesiasticae/Kirchengesenge Deudsch* (1545). He previously earned the Bachelor of Music degree in organ performance from the Oberlin Conservatory of Music, studying with David Boe, and the Master of Sacred Music degree from the University of Notre Dame, studying with Craig Cramer. He additionally mentored under Sherry Seckler and Christiaan Teeuwesen. He holds the Colleague certificate from the American Guild of Organists and was a finalist in the 2007 Arthur Poister Organ Competition.

Wessler previously worked as the Assistant Organist at the Church of St. Paul in Harvard Square and St. Paul's Choir School, where he accompanied the Choir of St. Paul's, the premier Catholic choir of boys and men in America. He also trained the Probationers, directed the St. Paul Parish Choir and the Schola Cantorum, and taught music theory in the Choir School. He maintains an active career as a recitalist and continuo player.

Wessler lives in suburban Boston with his wife, Joy, and their children, Julia, Matthew, and Benjamin.
